Dear Hiring Manager,

I come to know Mr. Chenyu Yang as he was taking my classes of CS147 computer architecture at SJSU.

Mr. Chenyu Yang was an outstanding student in my classes, and I am sure that he would prove to be the same at your company. He was always eager to learn, participated actively, and expressed his strong determination and passion for excellence. His work on my programming assignments was impressive and that proved his superior analytical skills and ability to think diligently. His grasp of the subject and true potential are reflected through his excellent GPA performing at par with regular students. He was punctual in all his assignments and projects. I think He has the ability to become a software engineer and desires to pursue higher goals.

In particular, Mr. Yang has been my best teaching assistant since the summer of 2021. His grading is always punctual with detailed corrections and explanations to the students. He could often point out subtle mistakes in my assignment designs and lectures. He also kindly notified me of his suggested corrections and revisions. The feedback from the students about his grading and help are all very positive and impressive. I am very fortunate to have him as my assistant. With his diligent and prompt help, my classes have been running at another higher level of efficiency and productivity.

Mr. Chenyu Yang is the kind of very capable, talented, and accountable software developer that I will definitely seek after if I was a hiring manager in any hi-tech company. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

Sincerely Yours,

A handwritten signature in black ink, reading "Chung-Wen Tsao".
